

There is no single, definite, universal formula for the denunciation, and they should retain a new democratic spirit on the subject. There is no danger of such a rule being a dangerous precedent—because it would only apply to similar cases. We will undertake to say another thing, and ask no other paper or person to follow unless they like, and that is: that journalism has made such inroads on democracy in this district, that if it is not checked tomorrow, a healthy democracy in one night might prove a blessing disguised. A few first class political generals are in order.

THE TIME TO ADVERTISE. — A very
important question to a *large* New
England city, once remarked to the
effect: "Always advertising most when
there are no dull." In many seasons it is
impossible to keep my name be-
fore the public. I am sure to get my
share of all spontaneous traffic. But
when business is light then I illuminate
my board the most special bargains, and
even suggest the time when special bar-
gains are sought for. — New York
